

SHIVAAY CONSULTANT

Steel • Foundry • Forging • Metallurgy • Quality & Process Consultancy

About Us

Shivaay Consultant provides practical industrial consultancy focused on steel melting, foundry operations, forging, heat treatment, metallurgy, quality control and process improvement.

Our Services

- Steel melting and grade development
- Foundry process and defect reduction
- Forging process development and troubleshooting
- Heat treatment process guidance
- Metallurgical inspection and quality systems
- Production, yield and cost improvement

Industrial Experience

Our work covers finished steel rounds, machined bars, packed material, hot-worked products, foundry components and induction-furnace related process support.
